Project type: Interior Design & FF&E Procurement

Value: £300k

Involvement: Interior Design
Project Management
Client Representation
Furniture Specification & Procurement

What we did

The redesign and refurbishment of a large corporate restaurant to accommodate up to 400 covers. This also included being able to convert the space into a large conference facility for quarterly use.

A greater variety of spaces and seating types were introduced throughout, enhancing the functionality and aesthetic.

The existing children’s area within the restaurant was retained and enhanced with new finishes and seating.
