**What we did**

Our client instructed WDL to develop a concept scheme for the design & development of an Incubation Hub. The facility was to include bespoke telephone booths, a central collaboration work area, library corner, touchdown spaces, a coffee zone and associated break-out areas. The scheme addressed feature lighting, wall & glass manifestation, floor finishes and new bespoke reception desk. The order included 50% of the product to be designed and manufactured at the in-house joinery workshop.
