

ISO-C

Edition | 2024

iSo-C café chair | A fully practical and stylish café chair, designed to enhance any room layout. The chair features foot caps that can be used to keep adjacent chairs in place, ensuring an organized and neat arrangement. The 12mm solid steel tube, coated in black powder, gives the chair a visually light and airy appearance. The clean sled base design ensures easy stacking, making it a convenient option for efficient storage.

With its minimalist polypropylene backrest and sharp black metal frame, the iSo-C Café Chair subtly plays with geometry and shadows, adding a refined touch to any room. Ideal for versatile settings—whether in cafés, meetings, conferences, or dining areas—this chair is a practical and space-saving solution for modern environments.
